ESSAY-HELPER · AGENT TEAM · UNIVERSITY OF WARWICK

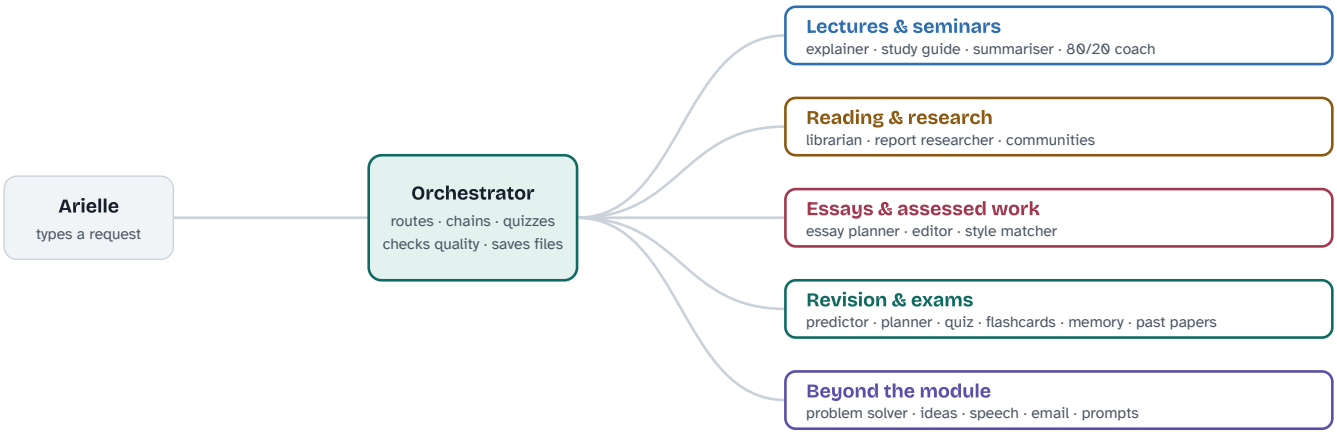

Arielle's agent map

You talk to one agent, the orchestrator. It picks the right specialist for you. Agents are grouped below by when you'll need them in the year. Each card has a phrase to copy and type; put in your own topic, module or notes.

Start here

```
claude --agent orchestrator
```

Run this inside the **essay-helper** folder, then just ask in plain English. Paste notes or give a file path (for example `notes/week3.md`) so the agents work from your module material. To pick one agent yourself, say **"use the flashcard-generator agent on …"**.

Lectures & seminars

After a lecture, before a seminar, or when a reading lost you.

`concept-explainer`

Explain it until it clicks

```
› Explain [concept] like I'm 12, then
give me the exam-ready version.
```

Trigger words: **explain**, **I don't get**, **like I'm 12**, **still confused**

`study-guide-creator`

Notes to study guide

```
› Turn my lecture notes in
notes/week3.md into a study guide.
```

```
› Make a mind map of this chapter:
[paste].
```

Trigger words: **study guide**, **my notes**, **chapter**, **mind map**, **storytelling**

`text-summarizer`

Seminar reading, fast

```
› Summarise the key points and takeaways of this article: [link or paste].
```

Trigger words: **summarise**, **key points**, **takeaways**, **gist**

`pareto-learning-coach`

The 20% that matters

```
› Give me the 80/20 of [topic] for my module.
```

Trigger words: **80/20**, **learn fast**, **essentials**

Reading & research

Building a reading list, writing a report, or finding people who study the same thing.

`research-librarian`

Real papers, real citations

```
› Find 5 key papers on [topic] with summaries, cited in Harvard style.
```

Trigger words: **papers**, **sources**, **reading list**, **cite**, **APA / Harvard / MLA**. Check which style your department wants.

`report-researcher`

Your research intern

```
› I'm writing a report on [subject]. Research it and include a step-by-step guide to [outcome].
```

Trigger words: **report**, **research**, **briefing**

`community-connector`

Find your people

```
› Connect me with communities of learners and experts in [topic].
```

Trigger words: **community**, **forum**, **Discord**, **subreddit**, **network**

Essays & assessed work

From the assignment brief to the final check before you submit.

`essay-planner`

Plan before you write

```
› Plan my essay. Here's the brief and marking criteria: [paste].
```

```
› Give me 3 thesis statements for [question].
```

Trigger words: **essay**, **assignment**, **outline**, **thesis**, **rubric**, **deadline**

`editor`

Proofread & feedback

```
› Proofread this and tell me how to strengthen my argument: [paste draft].
```

Trigger words: **proofread**, **feedback**, **edit**, **review my essay**

`style-mimic-writer`

Write in your voice

```
› Here's a sample of my writing: [paste]. Write 300 words on [topic] in that style.
```

Trigger words: **in my style**, **match this tone**, **write like me**

Revision & exams

For the revision weeks and exam period, from first plan to the night before.

`exam-predictor`

What's likely to come up

```
› Here's my module syllabus and past topics: [paste]. What's most likely on the exam?
```

Trigger words: **predict**, **likely on the exam**, **exam strategy**

`study-planner`

Revision timetable or cram plan

```
› I have 14 days until my [module] exam. Build me a day-by-day plan.
```

```
› My exam is tomorrow at 9am. Give me a survival guide.
```

Trigger words: **study plan**, **timetable**, **days until**, **exam tomorrow**, **cram**

`quiz-master`

Quiz me, one at a time

```
› Quiz me with 10 questions on [topic] and explain every answer.
```

Trigger words: **quiz me**, **test me**, **practice test**. The orchestrator asks one question at a time.

`flashcard-generator`

Anki / Quizlet deck

```
› Turn notes/week3.md into Anki flashcards.
```

Trigger words: **flashcards**, **Anki**, **Quizlet**. The deck is saved to `output/` as a .tsv file.

`memory-hacker`

Make it stick

```
› Help me memorise [list] with an acronym or memory palace.
```

Trigger words: **memorise**, **mnemonic**, **remember**

`past-paper-coach`

Answer like a top student

```
› Here's a past paper question [paste, with marks]. Walk me through answering it.
```

Trigger words: **past paper**, **exam question**, **model answer**

Beyond the module

Societies, placements, side projects, and everyday problems.

problem-solver

Step-by-step fix

```
› Give me a step-by-step guide to solve this problem: [describe].
```

Trigger words: **solve**, **how do I**, **decide**, **stuck**

idea-generator

Fresh ideas

```
› I need 5 fresh ideas for [society event / project].
```

Trigger words: **ideas**, **brainstorm**

launch-speech-writer

Launch speech

```
› Write a launch speech for [product or society] about [problem it fixes].
```

Trigger words: **launch speech**, **pitch**, **announcement**

customer-email-responder

Professional email reply

```
› Reply to this complaint in under 150 words, offering [solution]: [paste].
```

Trigger words: **reply**, **email**, **customer**, **complaint**

prompt-generator

Prompts for you

```
› Make me 10 prompts for a [course] student on [topic].
```

Trigger words: **prompts**, **prompt list**

Ask for several at once

One sentence can start a whole chain. The orchestrator passes each result to the next agent.

```
› Make a study guide and flashcards from notes/week3.md, then a 10-day revision plan.
```

`study-guide-creator` → `flashcard-generator` → `study-planner`

```
› Find sources on [topic], then plan my essay on [question].
```

`research-librarian` → `essay-planner` → `you write a draft` → `editor`

```
› From my syllabus, predict the exam, plan my revision, then quiz me.
```

`exam-predictor` → `study-planner` → `quiz-master`

```
› Summarise this article, then quiz me on it: [link].
```

`text-summarizer` → `quiz-master`

Before you submit anything

Check your module and department guidance on using AI in assessed work, and follow the university's academic integrity rules. Use the agents to understand, plan, practise and get feedback. Where the essay planner marks `[ADD: ...]`, put in your own evidence and analysis.
